About the Authors	iii
Preface	xvii
Introduction	xix

PART 1: OVERVIEW

Chapter 1: Forensic Mental Health in the United States— An Overview

Criminalization of the Mentally Ill: A Background	1-2
Increasing Numbers of Offenders With Serious Mental Illness in Correctional System	1-2
Nature of Criminal Offenses Committed	1-3
Vulnerability of the Seriously Mentally Ill Population	1-3
The Impact of the Corrections Environment	1-4
Lack of Adequate Mental Health Treatment	1-4
Deleterious Impact of Pervasive Violence	1-5
The Link Between Violence and Mental Illness	1-6
Public Safety Concerns	1-6
Assessing Real Risk of Violent Behavior	1-6
Historical Precedent to the Incarceration of Offenders With Mental Illness	1-8
Transcultural Association of Mental Illness With Violence	1-8
Failed Policy of Deinstitutionalization Led to Incarceration	1-9
Intervention, Diversion, and Evaluation	1-10
Prebooking Diversion	1-11
Postbooking Diversion	1-11
Connecticut	1-11
Broward County, Florida	1-11
New York City	1-12
Rochester, New York	1-12
Arizona	1-13
Need for More Research	1-13
Conclusion	1-14

Chapter 2: Developing Forensic Mental Health Care in the United Kingdom

Recent History of High-Security Special Hospitals 2-2
 Central Management Problematic 2-2
 Addressing Medium-Security Needs 2-3
 Development of Regional Secure Units 2-4
 Two Views of the Problem and Needed Solution 2-4
 The Butler Committee Proposal 2-4
 Financial Woes Slowed RSU Development 2-5
 “Other” Secure Units 2-6
 Levels of Mental Health Care Provision 2-6
 High Security 2-6
 Medium Security 2-7
 Low Security 2-7
 Patients Served 2-8
 Patient Characteristics 2-8
 Number of Admissions 2-9
 Mental Health Policy Development and Its Impact on
 Today’s Forensic Services 2-9
 Changes in Inpatient Population and Care Settings 2-9
 New Priorities for Social Services 2-10
 Quality and Accessibility of Hospital Services 2-11
 Severe Personality Disorders Addressed 2-11

PART 2: COMMUNITY INTERVENTIONS

Chapter 3: Community Mental Health Services for Offenders With Mental Disorders—Recent Innovations in the United States

Introduction 3-1
 Mental Health and the Criminal Justice System—An Overview 3-2
 Impact of Deinstitutionalization 3-2
 Criminalization of Mental Illness 3-2
 Lack of Appropriate Treatment for Offenders 3-3
 Negative Experience of Victims 3-3
 Providing Comprehensive Services to Offenders With Mental Illness 3-4
 Responding to the Needs of Offenders With Mental Illness—
 Recent Developments 3-5
 The SAMHSA Jail Diversion Initiative 3-5
 Broward County Mental Health Court 3-6
 Federal Legislation 3-7
 Children’s Health Act 3-7

America’s Law Enforcement and Mental Health Project Act . . . 3-8
 Conclusion 3-8

**Chapter 4: Mentally Disordered Offenders in the Community—
 A U.K. Perspective**

Introduction 4-1
 Need for Coordinated Mental Health Services 4-2
 Government Policy and Legislation 4-2
 Current Government Activities 4-2
 The National Service Framework for Mental Health 4-3
 Impact on Secure Services 4-3
 Implementation of the National Service Framework
 for Mental Health 4-4
 Current General Approaches for High-Risk Populations 4-4
 Care Program Approach 4-4
 Supervision Registers 4-5
 Supervised Discharge 4-5
 Severe Personality Disorders: A Special Issue 4-6
 Conclusions 4-7
 Supporting Forensic Patients in the Community 4-7
 Needed Structures and Working Practices 4-7

**Chapter 5: Connecticut’s Criminal Justice Diversion Program—
 A Comprehensive Community Forensic Mental Health Model**

Increasing Number of Offenders in Need of Mental Health Services 5-1
 Program Goals 5-2
 Program Structure 5-2
 Diversion Process 5-3
 Diversion Not Automatic for All Clients 5-3
 Treatment Planning 5-4
 Integrated Treatment Available 5-4
 Other Diversion Team Services Available to Nondiversion
 Clients 5-5
 Contrast With Other Diversion Efforts 5-5
 Research on the Connecticut Model 5-6
 Arrest, Jail-Time, and Hospital-Stay Statistics 5-6
 Attitudes of Legal and Court Personnel 5-6
 Summary and Conclusions 5-8

**Chapter 6: Evaluation of a Case Management Model in a Jail Diversion
 Program**

Evaluation Model Addresses Actual Field Experience and Needs 6-1

The LINK Diversion Program in New York City 6-2

Evaluation Methods 6-2

 Introduction of Study to Staff 6-2

 Data Sources 6-2

 Analytic Procedures 6-3

Study Findings 6-3

 How the Case Management Model Worked 6-3

 Client Influences on Community Success 6-4

 Systems Challenges and Their Influence on Community Success 6-6

 Responses to System Challenges 6-6

Chapter 7: The Mental Illness-Wellness Struggle and the Taking of Responsibility—Observations in the Clubhouse Setting (USA)

Introduction 7-1

The Fountain House Clubhouse Model 7-2

Why the Clubhouse Might Potentially Support the Forensic,
Mentally Ill Client 7-4

Brief Profile of the Population Studied 7-5

The Mental Illness-Mental Wellness Struggle 7-8

The Clubhouse Contribution to the Taking of Responsibility 7-8

The Work Responsibility-Taking Continuum Provided Pathways
for Clubhouse Members 7-10

 Jobs in the Clubhouse 7-10

 Transitional Employment Program 7-11

 Independent Employment in the Community 7-12

Conclusions 7-14

Chapter 8: Psychosocial Interventions for a Person With Serious Mental Health Problems, Using Street Drugs, and With a History of Related Offending

Introduction 8-2

Serious Mental Health Problems and Drug Use 8-2

Treatment Options 8-3

 Range of Interventions Needed 8-3

 Family Support and Behavioral Family Therapy 8-4

 Harm-Reduction Strategies 8-4

Case Study 8-4

 The Client’s History 8-4

 Interventions 8-5

 Multidisciplinary Case Management 8-5

 Family Therapy 8-6

Psychosocial Approach to Drug Use 8-7
 Physical Fitness Program 8-7
 Attempts at Independent Living 8-7
 Reflections on the Case 8-9
 Importance of Therapeutic Engagement 8-9
 Benefits of Structured Case Management and
 Multidisciplinary Teams 8-9
 Conclusion 8-10

**Chapter 9: Professional Collaboration to Effectively Manage Offenders
 With Mental Illness in the Community**

Shared Goals Among Criminal Justice and Mental Health
 Professionals 9-2
 Law Enforcement and Mental Health Systems Collaboration 9-2
 Key Issues 9-2
 Addressing Barriers to Cooperation 9-3
 Prison-Community Mental Health Collaboration 9-4
 Large Number of Offenders With Mental Disorders
 in Correctional System 9-4
 Inmates’ Need for Transition Assistance Before
 Reentering Community 9-5
 Shared Responsibility for the Incarcerated Population 9-5
 Probation-Mental Health Collaboration 9-5
 Factors in Successful Provider-Probation System
 Relationship 9-6
 Barriers to Providing Mental Health Care to Offenders
 in the Community Corrections System 9-6
 Overcoming Barriers 9-7
 Summary 9-7

**Chapter 10: Treating Offenders With Mental Disorders and
 Co-Occurring Substance Abuse Disorders—The Arizona
 Integrated Treatment Initiative**

Background 10-2
 Co-Occurrence of Mental Illness and Substance Abuse 10-2
 Sequential or Parallel Treatment Is Problematic 10-3
 Superiority of Integrated Treatment 10-3
 The Arizona Initiative: A Best Practice Treatment Model 10-4
 Building Consensus-Based Model 10-4
 Identifying the Target Population 10-5
 Matching Services to Clients 10-5

Benefits of Consensus Model in Development and Implementation
of Evidence-Based Treatment Practice 10-6

 Consensus-Building and Knowledge-Utilization Models
 Contrasted 10-6

 Consensus-Building Model Matched Arizona’s Goals 10-9

The Nine-Step Problem-Solving and Group Consensus Model 10-10

 Step 1: Identify Issues and Initial AITCP Development 10-10

 Step 2: Form the AITCP and Define the Project Scope 10-11

 Step 3: Develop a Vision of Desired Process, Outcome,
 and Goals 10-12

 Step 4: Analyze the Current Process 10-12

 Step 5: Identify Barriers to the Implementation of the Process 10-13

 Step 6: Identify Methods to Overcome Barriers to
 Implementation 10-13

 Step 7: Develop the Plan for the Best Practice Treatment Model 10-13

 Step 8: Refine and Implement Successful Solutions for Goals 10-14

 Step 9: Measure Progress 10-14

Results/Accomplishments 10-15

 General 10-15

 Development of an Implementation Plan 10-15

 Evaluation of the Consensus Panel Process 10-16

 Administrative Rule, Policy, Procedure, and Contract
 Modifications 10-17

 Administrative Rule Revisions 10-17

 Contract Modifications 10-17

 Funding 10-17

 Program Development and System Enhancement 10-18

 Staff Competency Enhancement 10-19

 Process Replication 10-19

Conclusion 10-19

**Chapter 11: Serving Paroled Offenders With Mental Illness Who
Are Homeless—Collaboration Between the Justice and Mental
Health Systems**

Introduction 11-1

 Population of Offenders With Mental Illness Is Large 11-2

 Transition to Community a Critical Period 11-2

 New York’s Response to Growing Number of Homeless Releasees 11-3

The Critical Time Intervention 11-3

 Noncoercive Engagement 11-3

 Model Can Be Adapted for Those Leaving Correctional Facilities 11-4

Focus on Housing and Continuity of Care	11-4
The Parole Forensic Mental Health Unit	11-5
Case Examples	11-6
Parolee With Chronic Paranoid Schizophrenia	11-6
Parolee With Schizoaffective Disorder	11-7
Sex Offender With Schizoaffective and Panic Disorders	11-7
Discussion	11-8
Need for Appropriate Supervised Housing	11-8
Factors Aggravating Housing Problem for Parolees With Mental Illnesses	11-9
Lessons Learned	11-9

PART 3: INSTITUTIONAL TREATMENT

Chapter 12: The Prevalence of Serious Mental Disorders Among U.S. Prisoners

Introduction	12-1
Definition of Serious Mental Disorder	12-2
Legal Definitions Avoid Specific Diagnoses	12-2
Narrow and Broad Definitions	12-2
Study Methodology	12-3
Study Results	12-3
NSMD Rates	12-3
BSMD Rates	12-6
Co-Occurring Disorders	12-6
Summary of Findings	12-6
Interpreting Individual Studies	12-7
Conclusion	12-7

Chapter 13: Decade of Advances in Risk Assessment—Implications for Corrections

Why Is “Risk Assessment” Important?	13-2
Recent Conceptual Advances	13-2
Shift From “Violence Prediction” to “Risk Assessment”	13-2
Expansion of Risk Factors	13-3
Prediction and Management Models	13-3
Risk Communication	13-4
Predicting Violent Recidivism	13-4
Predicting Recidivism for Mentally Disordered Individuals	13-5
Identifying High Psychopathy	13-6
Predicting Risk of Violence Within Correctional Institutions	13-6

Predicting Recidivism of Sexual Offenders 13-7
 Sexual Offense vs. Non-Sexual Offense Recidivism 13-7
 Dynamic Factors for Sexual Offense Recidivism 13-8
 Development of Risk Assessment Tools 13-8
 Violence Risk Appraisal Guide 13-9
 Historical, Clinical, Risk Management 13-9
 Rapid Risk Assessment for Sexual Offense Recidivism 13-10
 Static-99 13-11
 Risk Reduction/Management Tools 13-11
 Violence Behavior Analysis 13-11
 Analysis of Aggressive Behavior 13-12
 Using the HCR-20 for Assessing Risk Reduction 13-12
 Level of Service Inventory—Revised 13-12
 Guidelines for Violence Risk Assessment With Correctional
 Populations 13-12
 Determine If the Task Is Prediction, Management, or Both 13-12
 Be Familiar With Evolving Risk Assessment Literature 13-13
 Obtain Relevant Information From Several Sources 13-13
 Communicate Effectively 13-13
 Incorporate “Conditional” and “Contingent” Language Into
 Violence Risk Assessment and Communication 13-14
 Link Risk Assessment, Risk Reduction, and Decision Making
 When Appropriate 13-14

Chapter 14: The Application of Values to Professional Forensic Mental Health Work in Secure Settings

Introduction 14-1
 Professional Values 14-2
 General Cultural Values 14-2
 Detainees’ Values 14-3
 Values That Should Be Respected 14-3
 Values That Should Not Be Colluded With 14-3
 Application of a Values-Oriented Approach 14-3

Chapter 15: Program for Setting Up Assisted Psychiatric Live-in Centers for People With Mental Illness Admitted to a Maximum Security Hospital or Detained in Penitentiary Structures

Need for the Program 15-2
 Italy’s Law Regarding Mentally Ill Offenders 15-2
 Forensic Psychiatric Practice in Italy 15-3
 Impact of Split Between Forensic and Clinical Diagnosis 15-3

Need for an Alternative to Incarceration	15-4
The “Madness” of Prisons	15-4
Critical Issues	15-6
The Assisted Psychiatric Live-In Center Project	15-7
Experimental Project	15-7
Motivations and Final Objectives of the Program	15-7
Methodology	15-8
Program Structure	15-9
Phase 1. Quantification of the Psychopathological Problem Potentially Eligible for Experimentation	15-9
Phase 2. Choice of the Subjects to Be Admitted to the Program (Sample Group and Control Group)	15-9
Phase 3: Individuation of Facilities, Teams, and Rehabilitation Courses	15-10
Phase 4: Experimentation of the Program for One Year	15-10
Phase 5. Program Follow-up	15-10
Critical Characteristics	15-11

Chapter 16: The Clinical Impact of “Doing Time”—Mental Illness and Incarceration

Need to Sensitize Mental Health Care Providers to Effects of Correctional Incarceration on Clients	16-1
Understanding Correctional Culture	16-2
Personal Factors	16-2
Location Factors	16-2
How Inmates Adapt to Their Environment: The Inmate Code	16-3
Negative Impact of Inmate Code on the Mentally Ill	16-4
Additional Obstacles to Obtaining Treatment	16-5
Conclusion	16-6

Chapter 17: Multidisciplinary Group Work With Mentally Ill Sex Offenders in a Mental Health Environment

Prevalence of Sex Offending	17-2
Challenging the Claim That Treatment Does Not Work	17-2
Lessons From Meta-Analysis for the Development of Programs to Treat Offending Behavior	17-3
Use Risk Classification	17-4
Target Criminogenic Needs	17-4
Match Program Style to Clients	17-4
Operate in the Community	17-4
Use Multimodal Programs	17-4

Maintain Program Integrity	17-4
Structured Programs for Mentally Disordered Offenders	17-5
Need for Diversion	17-5
Problems of Implementation	17-5
What Is the Efficacy of a Structured Program Approach for Sexual Offending Behavior?	17-6
Program Settings	17-7
The Sex Offender Pilot Program at Kemple View	17-7
Core Multidisciplinary Team	17-7
Program Design	17-7
Program Content and Structure.	17-8
Session Monitoring	17-9
Participant Details	17-10
Program Development and Implementation Issues	17-10
Practical Issues of Program Design and Implementation	17-10
Staff Selection and Training Needs	17-11
Multidisciplinary Team Working	17-12
Patient Selection, Assessment, and Evaluation	17-12
Program Trouble Shooting	17-13
Conclusions	17-13

**Chapter 18: The Implementation of an Integrated Clinical Pathway
Into a Medium-Secure Forensic Psychiatric Unit**

Introduction	18-1
The Humber Centre Experience	18-2
Implementation	18-2
Review of Integrated Pathways	18-2
Outcome	18-4
Conclusion	18-4

**Chapter 19: Implementing Effective In-Prison Outpatient Care for Inmates
With Serious Mental Illness—The Ohio Experience**

Introduction	19-2
Effective Mental Health System Aids Both Patients and Administration	19-2
Post- <i>Dunn</i> ODRC System	19-2
Organization	19-3
Resources Allocated to Outpatient Psychiatric Services	19-3
Physical Resources	19-3
Staffing Levels	19-4
Screening to Identify Inmates Who Need Psychiatric Services	19-4

Outpatient Psychiatric Services Programming	19-5
Inmate Orientation	19-5
Ongoing Treatment and Monitoring	19-5
Treatment Planning	19-6
Programming for Outpatient Psychiatric Inmates	19-6
Access to Other Programming	19-6
Special Handling for Inmates in Administrative Segregation	19-7
Administration of Psychotropic Medication	19-7
Access and Prescribing Practices	19-7
Involuntary Medication	19-7
Medication Administration	19-8
Ongoing Compliance Oversight	19-8
Laboratory Testing	19-8
Crisis Intervention	19-9
Inter-Institutional Transfers of Inmates on the Psychiatric Caseload	19-9
Aftercare Planning	19-10
Centralized Documentation of Mental Health Services	19-10
Conclusion	19-10

Chapter 20: Quality Outpatient Mental Health Services in a Correctional Environment—The Central New York Psychiatric Center Model

Overview of Outpatient Programs, Services, and Activities	20-2
CNYPC Organizational Structure	20-2
Administration of the Outpatient Services	20-2
Satellite Unit Program Components	20-2
Residential Crisis Treatment Programs	20-2
Outpatient Services	20-3
Special Housing Unit Services	20-3
Prerelease Planning	20-3
Consultative Services	20-3
Services for Intermediate Care Programs	20-3
Reception Centers	20-3
Mental Health Unit Program Components	20-4
Outpatient Services	20-4
Special Housing Unit Services	20-4
Prerelease Planning	20-4
Consultative Services	20-4
Prerelease and Aftercare Coordination	20-4
Prerelease Planning Process	20-4
Referral to Community Outpatient Providers	20-4

Special Program for New York City 20-5
 Ensuring Continued Availability of Medication 20-6
 Conclusion 20-6

Chapter 21: Professional Issues for Nurses in Secure Environments

Introduction 21-2
 Background 21-3
 The Scoping Study 21-3
 Methods of Data Collection 21-4
 Data Analysis 21-4
 Study Conclusions 21-5
 Secure Hospital Care 21-5
 Health Care in Prisons 21-6
 Key Issues and Recommendations 21-7
 Competencies Required of Nurses Working in Secure
 Environments 21-7
 Assessment of the Evidence Base for Nursing Interventions
 in Secure Environments 21-7
 Development of Practice Standards in Secure
 Environments 21-8
 Effectiveness of Preparation of Nurses Working in Secure
 Environments 21-9
 Preregistration 21-9
 Postregistration 21-9
 Clinical Supervision. 21-9
 Induction 21-9
 Physical Interventions 21-9
 Issues in Working With a Client Group That May
 Compromise Therapeutic Nurse-Patient Relationships 21-10
 Challenge of Working With Clients Who Have
 Personality Disorders 21-10
 Physical Health Needs of Women and All People
 From Different Cultural Backgrounds 21-10
 Conclusion and Action 21-11

Chapter 22: Living With Chaos—Strategies for Effective Change Management

Introduction 22-1
 Dealing With a Problem Ward 22-2
 Reducing Resistance to Change 22-2

Theories of Change Management	22-3
Change as a Scientific Process	22-3
Change Manager as Artist	22-4
Process-Oriented Focus	22-4
Combining Planned and Emergent Approaches	22-4
Articulating Change Theory in Promoting a Mental Model for	
Change	22-6
Facilitation Process	22-8
Promoting Creativity and Team Involvement	22-8
Understanding the Emotional Component	22-9
Conclusion: Application to the Ward	22-10

Chapter 23: “Big, Black, and Dangerous”? The Vexed Question of Race in U.K. Forensic Care

Introduction	23-1
Race and Forensic Psychiatry	23-2
Accounting for the Discrepancies	23-2
Locating Mental Health in Black and White Men	23-3
Use of Q Methodology	23-3
White and Black Factors Compared	23-4
Race, the Self, and Psychopathy	23-5
Black Men as “Other”	23-6
Otherness and Forensic Psychiatry	23-7
Conclusions	23-8

Chapter 24: Using Cognitive Analytic Therapy in an Institution to Understand and Help Both Client and Staff

Introduction	24-1
The Client	24-2
Early Emergence of Behavioral Problems	24-2
Conflict With Dominant Father; Displaced Anger	24-2
Incarceration Replayed Family Situation	24-3
Cognitive Analytic Therapy	24-3
Relationship to Attachment Theory	24-3
CAT Tools and Terminology	24-3
The Psychotherapy File	24-4
The Reformulation Letter	24-4
The Sequential Diagrammatic Reformulation	24-5
Rating Sheets	24-5
Good-bye Letters	24-5

Therapy and the Use of CAT Tools 24-5
 Conclusion 24-6

Chapter 25: The Development of a Conceptual Framework of Therapeutic Alliances in Psychiatric (Nursing) Care Delivery

Introduction 25-1
 The Notion of Therapeutic Alliance 25-2
 Critical Issues Identified in Five-Country Review of Inpatient Services 25-2
 Need for Collaborative Model 25-3
 Relationships and Alliances 25-3
 “A Sense of Control” 25-4
 A New Framework for Psychiatric Care 25-5
 Future Research 25-6

Chapter 26: The Maryland Mental Hygiene Administration’s New Approach to a Traditional Program

Program Developed to Address Concerns of Jail Wardens 26-1
 Funding 26-2
 Case Management Approach 26-2
 Intake Assessment of Detainees 26-2
 Treatment Services 26-3
 Transition to Community 26-3
 Results 26-3
 Evaluation Data 26-3
 Program Continuation 26-6
 Conclusion 26-6

Chapter 27: The Role of Media in Fostering Community Acceptance

Introduction 27-1
 Why You Should Care About Local Radio 27-2
 The Past: The Bad Old Days 27-2
 Management Silence Breeds Fear and Myth 27-2
 Silence Breeds Press Suspicion and Exposés 27-3
 “News Management” Policy Needed 27-3
 How Honest Is Honest? How Open Is Open? 27-4
 PR Point Person Helps 27-4
 Access to Key Players Essential 27-4
 Proactive Use of Media 27-4
 Example 1 27-5
 Example 2 27-5

Even Bad News Must Get Out	27-5
Proactive Stance Can Reduce Stigma, As Well	27-6
Why We See Sensational Press Coverage—And How to Curtail It	27-6
Cultivate Positive Press Coverage	27-7
Set a Press Agenda	27-8
Learn to “Spin” News	27-8
Defuse Aura of Secrecy	27-9
Conclusion	27-11

PART 4: LEGAL AND ENFORCEMENT ISSUES

Chapter 28: Police Discretion and Mentally Ill Persons

The Police Role in Handling Mentally Ill Persons	28-1
Officer Decision Making Regarding Mentally Ill Persons	28-2
Law Enforcement Options for Handling Mentally Ill Persons	28-3
Formal Options	28-3
Hospitalization	28-3
Arrest	28-4
Informal Options	28-5
Neighborhood Characters	28-5
Troublemakers	28-6
Quiet, Unobtrusive “Mentals”	28-6
Are Mentally Ill Persons Being Criminalized?	28-6
Explanations for a Higher Arrest Rate	28-7
Implications of Criminalizing Mental Illness	28-7
Policy Recommendations	28-7

Chapter 29: Dead Men Talking—Mental Illness and Capital Punishment

Introduction	29-1
Historical Overview	29-1
Case Law	29-2
Mental Illness in the Capital Client Population	29-3
Rise of the Mitigation Specialist	29-3
Methodology: What Mitigation Specialists Do	29-4
Types of Questions Pursued	29-4
Sources of Information	29-6
Case Studies	29-7
Use of Mitigating Evidence at Sentencing	29-7
Use of Mitigating Evidence on Appeal	29-8

Unsuccessful Use of Mitigation Evidence in a Clemency Petition 29-10
 Concluding Thoughts 29-10

Chapter 30: Legal Issues in Provision of Jail Mental Health Services

Overview 30-2
 The Right to Treatment 30-3
 Detainees and the Fourteenth Amendment 30-3
 What Does “Deliberate Indifference to Serious Medical Needs” Mean? 30-4
 Deliberate Indifference 30-4
 Serious Medical Need 30-5
 Problems Around Questions of Degree 30-6
 How Much Care Is Sufficient? 30-8
 Identifying Problems 30-8
 Ongoing Obligations 30-9
 Critical Importance of Records 30-10
 Summary 30-11
 Consent, the Right to Refuse Treatment, and
 Involuntary Treatment 30-11
 Washington v. Harper 30-12
 Must a Judge Approve Involuntary Medication? 30-12
 Substantive Criteria for Treatment 30-13
 Procedural Steps for Involuntary Treatment 30-14
 Summary 30-16
 Hunger Strikes 30-16
 Doctor-Inmate Confidentiality 30-17
 Jail Liability for Suicides 30-18
 Identification of Potential Suicides 30-19
 Obtaining and Using Knowledge of Risk 30-19
 Sharing Information 30-21
 Monitoring Suicide Risks 30-22
 Effective Jail Staff Response to Suicides 30-24
 Jail’s Liability Under a Negligence Theory 30-24
 Summary 30-25
 Use of Restraints 30-25
 Who Can Order Restraints and for What Reasons? 30-27
 Mental Health Professionals’ Participation in Placement
 and Retention Decisions 30-28
 Types of Restraints 30-28
 Monitoring Restrained Inmates 30-29

Documentation of Use of Restraints 30-31
 Discipline and the Mentally Disordered Inmate 30-31
 Housing the Mentally Ill Inmate 30-32
 Conclusion 30-33

Chapter 31: Outpatient Civil Commitment—A Growing Trend in State Law

Introduction 31-1
 Situation That Led to Passage of Outpatient Civil Commitment
 Laws 31-2
 Deinstitutionalization 31-2
 Treatment Noncompliance 31-2
 Prevalence of Assisted Outpatient Treatment Laws 31-2
 Definition of Outpatient Civil Commitment 31-3
 Key Statutory Provisions 31-4
 Who May Petition? 31-4
 Outpatient Commitment Standards 31-4
 Mental Illness 31-4
 Dangerousness 31-4
 Need for Treatment 31-5
 Decisional Incapacity 31-5
 Standard of Proof 31-5
 Additional Due Process Protections 31-5
 Least Restrictive Alternative 31-6
 Treatment Plan 31-6
 Enforcement 31-6
 Utilization of Outpatient Commitment 31-6
 Areas of Controversy 31-7

PART 5: JUVENILE TREATMENT ISSUES

Chapter 32: Responding to the Mental Health Treatment Needs of Juveniles

Introduction 32-1
 The Current Crisis 32-2
 Numbers of Children With Mental Health and Related Disorders 32-2
 Why So Many Youth With Mental and Emotional Disorders
 End Up in the Justice System 32-3
 Get-Tough Approach Ignores Treatment Needs 32-3

Key Elements of Programs That Work 32-4
 Institutional Issues 32-5
 Conclusion 32-5

Chapter 33: Lessons From a New Case Management Model for Juvenile Offenders With Mental Health Needs

Introduction: The Adolescent Link Program 33-1
 Link Program Design 33-2
 Long-Term, Client-Centered Case Management 33-2
 Referral and Follow-up 33-2
 Intensity and Level of Case Management 33-2
 Community-Based Setting 33-3
 Issues Facing the Population 33-3
 Education 33-3
 Mental Health 33-4
 Barriers to Treatment 33-4
 Barriers to Compliance With Medications 33-4
 Recreation 33-4
 Multiple Forces 33-5
 Case Example 33-5
 Best Practice Model 33-6
 Recommendations for Community-Based Support Services 33-6
 Conclusion 33-7

Chapter 34: Mental Health Concerns of Adjudicated Adolescents—A Challenge for Juvenile Justice System

Introduction 34-2
 Prevalence of Youth With Mental Disorders in “the System” 34-2
 Steady Stream of Youth With Mental Disorders Likely
 to Enter the System 34-3
 Overview of Risk Factors for Juvenile Mental Disorders 34-5
 Identifying Mental Health Issues and Service Needs for Youth 34-7
 Absence of Good Prevalence Data 34-8
 Inadequate Screening and Assessments 34-8
 Fragmented Service Delivery 34-8
 Poor Communication and Coordination Across Systems 34-9
 Strategies for Improving Services 34-9
 Standardized Screening and Assessment 34-9
 Continuity of Care 34-9
 Mental Health Oversight Committee 34-9
 Extent of Mental Health Disorders in Adjudicated Juveniles 34-10

Special Mental Health and Substance Abuse Issues and
 Concerns of Adolescent Females 34-11
 Major Psychosocial Concerns 34-11
 Mental Health Issues 34-11
 Substance Abuse Treatment Needs 34-11
 Trauma and Abuse 34-12
 Parenting and Interpersonal Relationships 34-12
 Developing Programs That Work 34-12
 Conclusion 34-14

Chapter 35: An Interactive Group-Based Curriculum to Increase Mental Health Awareness and Empathy in Juvenile Delinquents

Increasing Incidence of Mental Disorders in Youth 35-1
 Need for Services 35-2
 Social and Economic Costs 35-3
 Helping Youth to Understand Mental Illness Enhances Their Own
 Program Success 35-3
 Juvenciles’ Ability to Understand Factors Associated
 With Mental Illness 35-3
 Need for an Appropriate Interactive Curriculum 35-4
 The Mental Health Awareness Curriculum 35-5
 Curriculum Evaluation 35-6
 Future Research Needed 35-7

PART 6: WOMEN’S TREATMENT ISSUES

Chapter 36: Incarcerated Women and Self-Harm—Security or Sanity

Introduction 36-2
 The Female Offender Population 36-2
 Fast-Growing Segment of Correctional Population 36-2
 Likelihood of a Mental Disorder Diagnosis 36-3
 The Trauma Connection and the Jail Environment 36-4
 Forensic Services in Corrections 36-5
 Initial Mental Health Screening Primarily a Management
 Tool 36-6
 Limitations and Problems of Forensic Mental Health
 Services for Women 36-6
 Integrating Women’s Mental Health Services Into a Holistic
 Management Approach in Corrections 36-8
 Necessary Elements 36-8

Mental Health Education	36-8
Personal Safety	36-9
Sense of Trust and Dignity	36-9
Trained Counselors	36-9
A Paradigm Shift	36-10
The Milieu Approach for Women at Hampden County Correctional Center	36-10
An Innovative Model	36-10
Management Formula	36-11
Security	36-11
Programs	36-11
Milieu	36-11
Conclusion	36-12

Chapter 37: Women’s Forensic Services in the United Kingdom

Persistent Problems	37-1
Women’s Routes to Forensic Mental Health Care Differ From Men’s	37-2
Women in High-Secure Settings	37-2
Offense Details and Their Impact on Treatment	37-4
What Is Required for Effective Treatment Services	37-4
Staff Issues	37-4
Women Inmates’ Needs	37-5
Conclusion	37-6

Chapter 38: Women’s Secure Hospital Services in the United Kingdom

Impact of Social Attitudes Toward Women With Mental Disorders	38-1
Dismissal of Women’s Needs	38-2
Control Over Women’s Bodies	38-3

Chapter 42: Victims of Offenders With Mental Illness—A Personal Perspective, With Suggestions for Change

One Crime, Many Victims	42-2
Our Victim Support Activities	42-3
Victims of Offenders With Mental Illness and Their Exposure to the “System”	42-3
Court Proceedings After the Murder	42-4
Court Proceedings After Offender’s Commitment	42-4
Our Law Change Initiatives	42-5
Offender Releases Into the Community	42-6
Offenders With Mental Illness Sent to Various Departments of Corrections After Being Found Guilty of a Crime	42-6
Offenders With Mental Illness Sent to Various Departments of Mental Health After Being Found NGRI or Incompetent to Stand Trial	42-7
The Many Victims of Offenders With Mental Disorders	42-7
What Victims Want	42-8
Summary	42-9

PART 8: TRAINING

Chapter 43: The Forensic Mental Health Certificate Training Program—A Collaborative Model

Introduction	43-1
Need for Training	43-2
Large Proportion of Criminal Offenders Who Have Mental Illness	43-2
Issues Faced by Criminal Justice System Personnel	43-2
Issues for Community Agency Staff	43-3

Training as a Means to Lessen Barriers to Treatment	43-3
The New York University Forensic Mental Health Certificate	
Training Program	43-3
Course Content	43-4
Overview Modules	43-4
Modules on Working With Clients	43-4
Treatment and Clinical Impact Modules	43-5
Violence/Suicidality Assessment Module	43-5
Adolescent Care Module	43-5
Advocacy Module	43-5
Conclusion	43-6

Chapter 44: Pre- and Postqualifying Training for Nurses in Secure Environments

Introduction	44-1
Review of Preregistration Training	44-2
Need for Additional Education in Forensic Psychiatric	
Issues	44-2
Available Electives	44-2
Findings: What Is Needed	44-3
Postregistration Training and Continuing Professional	
Development	44-5
Education Provision Within Higher Education	44-8
Clinical Supervision, Preceptorship, and Mentorship	44-8
Staff Appraisal and Personal Development Planning	44-10
Training for New Positions	44-11
Training in Use of Control and Restraint	44-12
Findings: What Is Needed	44-12
Conclusion	44-14

Chapter 45: Educating Practitioners for Forensic Health and Social Care

Introduction	45-1
Growth in Forensic Provision of Mental Health Care	45-2
Definition of Forensic Mental Health Care	45-2
Institution-Based Care	45-2
Early Efforts to Provide Forensic Mental Health	
Training	45-3
Development of Practice-Based, Clinically Focused Programs	45-3
Multidisciplinary Working and Multidisciplinary Education	45-5

Demand-Led Education and Collaboration	45-6
User Involvement	45-6
Program Philosophy	45-7
Development of a Reflective, Self-Reliant Practitioner	45-8
Stage One: Self-Awareness	45-8
Stage Two: Descriptive Reflection	45-8
Stage Three: Critical Reflection	45-9
Stage Four: Evaluative Reflection	45-9
Conclusions	45-9

Chapter 46: Nursing in Secure Environments—Providing a Foundation for Quality Care

Introduction	46-1
Program to Prepare Nursing Staff for Work Entry Into Secure Environments	46-2
Subject Matter and Teaching Package	46-2
Implementation	46-3
Evaluation	46-3
Baseline Existing-Staff Education Program for Nurses	46-3
Evaluation	46-6
Benefits	46-6
Protection Against Staff Burnout	46-7
Use of a Stand-Alone Questionnaire for Additional Evaluation Purposes and Future Educational Planning	46-7
Methodology	46-7
Results	46-8
The Future	46-8
Conclusion	46-9

Chapter 47: Major Incident and Hostage-Taking Management Training

Introduction	47-1
The Role-Playing Scenario	47-2
Planning and Preparation	47-2
Role-Play Execution	47-2
Evaluation, Lessons Learned, and Training/Development Needs	47-2
Hostage-Taking Awareness Training	47-3
Development of Curriculum	47-3
Use of Role-Play Exercise	47-5
Follow-up to Training	47-5
Further Responses to Identified Training/Development Needs	47-6

Ongoing Developments 47-6
Conclusion 47-7
