About the Editor and Contributors	v
Preface	xv

PART 1: GENERAL MANAGEMENT ISSUES

Chapter 1: Placing Special Correctional Populations in the Context of Larger Issues in Jail and Prison

Stan Stojkovic, Ph.D.

Parameters of the Problem	1-1
A Test of Correctional Leadership	1-2
Problem Management and Institutional Perspectives	1-3
Jails: Community Corrections and Special Population Prisoners	1-4
Evolution of Jail Operations	1-4
Jail–Social Service Interface	1-5
Jail Operational Issues That Affect Special Population Management	1-5
Legal Parameters and Operational Authority	1-6
Budgetary Constraints	1-6
Ever-Changing Populations	1-7
Complex Network of Decision Making	1-7
Prisons and Special Population Prisoners	1-8
Governing Laws and Administrative Rules	1-8
Prisoner Demographics	1-8
Prison as a Part of the Correctional Continuum	1-9
Critical Leadership Issues	1-11

Chapter 2: General Management Concerns—Preparing Staff to Work Efficiently

Richard G. Kieckbusch, Ph.D.

Introduction	2-2
Critical Role of the Correctional Officer	2-2
Essential Traits of the Correctional Officer	2-3
Officer’s Role in Management of Special Population Prisoners	2-4
Six Cornerstones of an Effective Management System	2-6
Mission Statement	2-6
Organizational Chart	2-8
Job Descriptions	2-8
Operating Manual	2-10
Performance Evaluation	2-12

Training	2-13
Role of Staff Specialists	2-14
The Future	2-15

Chapter 3: The Importance of Policies and Procedures in Management of Special Populations in Correctional Settings

Martin Drapkin, M.S.

Introduction	3-2
Purposes of Policies and Procedures	3-2
Key Elements of the Policies and Procedures Development and Implementation Process	3-3
Develop an Agency Mission	3-3
Develop an Action Plan for Policies and Procedures Development and Implementation	3-4
Conduct Research on Policy Contents	3-4
Draft and Refine Policies and Procedures	3-5
Distribute and Implement Policies and Procedures	3-5
Train Staff on Policy Contents and Skills Necessary to Carry Out Policies and Procedures	3-5
Supervise Staff Members to Ensure Compliance With Policies	3-6
Policies and Procedures on Special Management Populations	3-6
Example: Policy and Procedures in Action	3-10
The Mission	3-11
Written Policies and Procedures	3-11
Suicide Prevention	3-11
Aftercare	3-13
Reflection of Current Standards	3-14
Training of Staff Members	3-15
Supervision	3-16
Need for Continued Review of Policies and Training	3-17
Summary	3-18

PART 2: POPULATIONS CREATED AS A RESULT OF ILLNESS

Chapter 4: Clinical Management of HIV Disease in Correctional Facilities

Abe Macher, M.D.

Introduction	4-3
Scope of the Problem	4-3
Risk Behavior and Seroprevalence Data—The Global Perspective	4-3
Canada	4-4
Europe	4-4

Russia	4-4
China	4-4
India	4-4
Africa	4-5
South America	4-5
United States	4-5
Transmission of HIV Infection During Incarceration	4-7
HIV Counseling and Testing for Inmates	4-7
Diagnostic Tests	4-8
Natural History of HIV Infection: Primary HIV Infection/Acute Retroviral Syndrome	4-9
Treatment Considerations	4-9
Antiretroviral Treatment of Chronic HIV Infection	4-11
Antiretroviral Regimens or Components That Should Not Be Offered	4-12
Monotherapy	4-13
Dual Nucleoside Therapy	4-13
3-NRTI Regimen With Abacavir + Tenofovir + Lamivudine	4-13
3-NRTI Regimen With Didanosine + Tenofovir + Lamivudine	4-13
Stavudine + Zidovudine	4-13
Invirase as a Single Protease Inhibitor	4-13
Zalcitabine + Didanosine, and Zalcitabine + Stavudine	4-14
Atazanavir + Indinavir	4-14
Emtricitabine + Lamivudine	4-14
Didanosine + Stavudine	4-14
Lamivudine + Zalcitabine	4-15
Efavirenz in First Trimester of Pregnancy and Women With Significant Childbearing Potential	4-15
Prophylaxis and Immunizations	4-15
Meeting Treatment Goals	4-17
Drug-Resistance Testing	4-18
Conditions Associated With Antiretroviral Treatment	4-18
Antiretroviral Treatment Associated Hepatotoxicity	4-18
Antiretroviral Treatment Associated Lactic Acidosis/Hepatic Steatosis	4-20
Antiretroviral Treatment Associated Hyperglycemia	4-21
Antiretroviral Treatment Associated Fat Maldistribution	4-21
Antiretroviral Treatment Associated Hyperlipidemia	4-22
Antiretroviral Treatment Associated Osteonecrosis, Osteopenia, and Osteoporosis	4-22

Antiretroviral Treatment Associated Skin Rash	4-23
Antiretroviral Treatment Associated Immune Reconstitution Inflammatory Syndrome	4-24
Special Treatment Concerns With Co-Occurring Conditions	4-24
Substance Abuse and Hepatitis B and Hepatitis C Virus Co-Infection	4-24
Hepatitis B	4-25
Hepatitis C	4-25
Pregnancy	4-26
Tuberculosis	4-27
Resources for Staff	4-28
Access to No-Cost Clinical Consultations	4-28
Access to the Postexposure Prophylaxis Hotline	4-29
Patient Adherence and Supportive Reinforcement	4-29
Ongoing Counseling of HIV-Infected Inmates for Prevention of HIV Transmission	4-30
Counseling During Clinical Visits	4-30
Peer Counseling	4-31
San Quentin Centerforce Program	4-31
Harm Reduction Strategies for Prevention of HIV Transmission	4-32
Palliative and Hospice Care	4-33
The Hospice Model in Corrections	4-34
Resources for Administration	4-34
Prerelease Discharge Planning/Case Management for Postrelease Continuity of Care	4-35
Importance of Continuity of Care	4-35
Programs in the Field	4-36
Arizona	4-36
Virginia	4-36
New York	4-37
Impact on Ex-Offenders	4-38
Resources for Case Managers	4-38
Access to Education for Correctional Health Care Providers	4-39
Regional Collaboration Among Correctional Facilities and Agencies: A Prototypical U.S. Public Health Service Initiative	4-39

Chapter 5: Hepatitis B and Hepatitis C Among Offenders Within Prisons

Anne S. De Groot, M.D. and Rachel Maddow, D.Phil.

Introduction	5-2
What Is Hepatitis?	5-2

Hepatitis B	5-3
Hepatitis C	5-3
Transmission of HBV and HCV Within Correctional Facilities	5-4
Inmate Behaviors That Foster Transmission	5-5
Inmate Sex and Rape	5-5
Drug Use	5-5
Tattooing and Body Piercing	5-6
Fights	5-6
Shared Toothbrushes, Razors, Clippers	5-6
Gassing	5-6
Needlesticks and Sharp Exposures	5-7
Events That Are Not Associated With HCV and HBV	
Transmission	5-7
Prevention Via Hepatitis B Vaccination	5-7
Vaccination of Inmates	5-7
HBV Vaccination of Correctional Staff	5-9
Postexposure Prophylaxis	5-9
Hepatitis Testing—Policy Parameters	5-10
Testing for HBV	5-10
Testing for HCV	5-11
CDC Recommendations	5-12
Scheduling of Tests	5-12
Posttest Evaluation	5-12
Confidentiality, Disclosure, and Discrimination	5-13
Housing Considerations	5-13
Treatment	5-13
Treatment of Chronic Hepatitis B Infection	5-14
Treatment of Hepatitis C	5-14
Special Considerations Relating to Hepatitis in Pregnancy	5-16
HIV Co-Infection	5-16
Counseling, Education, and Peer Support	5-17
Conclusion	5-18

Chapter 6: Tuberculosis in Correctional Facilities

Abe Macher, M.D.

Introduction	6-3
Incidence of Tuberculosis in Jails and Prisons	6-4
United States	6-4
1970s	6-5
1980s	6-5
1990s	6-5

Case Study: TB Spread Within Prison and Beyond—	
California	6-8
Case Study: Need for Identification and Isolation—	
South Carolina	6-10
Global Perspective	6-11
Brazil	6-11
Great Britain	6-11
Spain	6-13
Czechoslovakia	6-13
Portugal	6-13
Italy	6-14
France	6-14
Turkey	6-14
Malawi	6-14
Ivory Coast	6-14
Tanzania	6-14
Madagascar	6-14
Botswana	6-15
Thailand	6-16
Australia	6-16
New Zealand	6-17
The Russian Federation	6-17
Prevention and Control of Tuberculosis in Correctional Facilities	6-20
Importance of Prevention and Control	6-20
Essential Program Tasks	6-21
Screening	6-21
Containment	6-21
Assessment	6-21
Helpful Resources	6-22
Symptom Screening	6-22
In Long-Term Correctional Facilities	6-22
In Short-Term Correctional Facilities Serving Populations at	
High Risk for Tuberculosis	6-23
In Short-Term Correctional Facilities Serving Populations at	
Low Risk for Tuberculosis	6-24
Skin Test Screening	6-26
Mantoux Tuberculin Skin Test	6-26
Two-Step Tuberculin Skin Testing	6-27
Follow-Up Screening	6-28
Radiographic Screening of Inmates for Tuberculosis	6-28
Example: New York City	6-29

Example: Cook County, Illinois (Chicago) 6-30

Example: Taiwan 6-30

High Rates in Russia 6-31

Diagnosis of Tuberculosis 6-31

Treatment of Tuberculous Infection and Tuberculosis Disease 6-31

 Initial and Continuation Phases 6-33

 Initial Phase—Two Months 6-33

 Continuation Phase—Four to Seven Months 6-34

 Clinical Monitoring During Treatment 6-35

 Liver Function 6-35

 Visual Acuity 6-37

 Ongoing Sputum Tests 6-37

 Drug Susceptibility 6-38

 Dealing With Interruptions in Therapy 6-38

 Tuberculosis and HIV Infection 6-39

 Paradoxical Reactions 6-39

 Multidrug-Resistant Tuberculosis 6-40

 The Negative Impact of Prisoner Hierarchies on Treatment
 of Tuberculosis 6-41

Isolation Containment of Tuberculosis Populations 6-43

Contact Investigations 6-44

Collaborative Role of the Public Health Department 6-45

Special Concerns of Immigration-Related Detainees 6-45

Continuity-of-Care Issues: Work Remains to Be Done 6-46

Poverty, Incarceration, and Tuberculosis 6-47

Conclusion 6-48

**Chapter 7: Managing Chronic Diseases and Chemical Detoxification
Within Correctional Settings**

Michael B. Nelson, D.O. and Shelly R. Stanton, M.D.

Introduction 7-3

Management of Asthma 7-4

 Diagnosis 7-4

 Pulmonary Function Testing 7-4

 Additional Diagnostic Studies 7-5

Classification of Asthma Severity 7-6

 Treatment of Asthma 7-6

 Fostering Patient Compliance 7-6

 Vaccinations 7-6

 Quick Relief Medications 7-6

 Long-Term Control Medications 7-8

Step Therapy for Inmates With Asthma	7-9
Step 1: Mild Intermittent Asthma	7-9
Step 2: Mild Persistent Asthma	7-9
Step 3: Moderate Persistent Asthma	7-9
Step 4: Severe Persistent Asthma	7-9
Management of Asthma Exacerbations	7-10
Assessing Response	7-10
Treatment Principles	7-11
Decision to Hospitalize	7-11
Management of Hypertension	7-12
Diagnosis of Hypertension	7-12
Treatment of Hypertension	7-13
Lifestyle Modifications	7-14
Pharmacological Treatment	7-14
Special Treatment Considerations	7-15
Ischemic Heart Disease	7-15
Heart Failure	7-15
Diabetes	7-15
Chronic Kidney Disease	7-15
Cerebrovascular Disease	7-16
Demographic Factors	7-16
Geriatrics	7-16
Asthma/COPD	7-16
Pregnancy	7-16
Hormone Replacement and Oral Contraceptives	7-16
Dealing With Treatment Failure	7-17
Dealing With Hypertensive Crises	7-17
Management of Heart Disease	7-17
Emergency Assessment of an Inmate With Chest Pain	7-18
Treadmill Exercise Stress Testing, Other Noninvasive Testing, and Angiography	7-20
Key Issues in the Medical Management of Coronary Disease and Post-MI Inmates	7-22
Cardiac Rehabilitation in Prison	7-22
The Heart Transplant Issue	7-23
Prison Policy Issues	7-23
Medical Indications and Contraindications	7-24
Behavioral Contraindications	7-25
Management of Diabetes Mellitus	7-26
Achieving Target Hemoglobin A1C	7-27
Coordination of Mealtimes and Insulin Administration in Prisons	7-28
Coordination of Insulin and Food Intake	7-28

Maximizing Glycemic Control	7-29
Brittle Diabetic or Just Suboptimal Management?	7-30
Management of Epilepsy in Correctional Institutions	7-31
Types of Seizures	7-32
Partial Seizures	7-32
Generalized Seizures	7-32
Multiple Seizure Types in a Single Patient	7-32
Evaluation of Inmates With New Onset of Seizures	7-33
Evaluation of Inmates With a History of Seizures	7-34
Management of Inmates With Nonepileptic “Spells”	7-35
Medical and Correctional Response to Inmates Who Seize	7-36
Detoxification of Chemically Dependent Inmates	7-37
Detection of Substance Abuse and Treatment of Withdrawal	7-38
Management of Inmates With Complicating Medical and Psychiatric Conditions	7-39
Brain Injury	7-39
Cardiac Disease	7-39
Liver and Kidney Disease	7-39
Psychiatric Disorders	7-39
Elderly Inmates	7-40
Pregnancy	7-40
Short-Stay Inmates	7-40
Conclusion	7-40
Appendix 7.1: Other Useful Sources of Information	7-43

Chapter 8: Depression—The Prisoner’s Plight

Robert W. Dumond, M.A., L.C.M.H.C., Dip.CFC and Doris A. Dumond, M.A.

Where Is American Corrections in the Twenty-first Century?	8-2
Where Have We Been in American Corrections?	8-4
What Actually Happens to Prisoners?	8-5
Prisonization	8-5
The Pains of Imprisonment	8-5
Total Institutionalization	8-6
Negative Impact of Incarceration May Not Be Universal	8-6
Key Recommendations to Manage the Negative Consequences of Incarceration	8-7
The Scope of Depression and Mental Health Problems in Corrections	8-8
Many Prisoners Suffer From Mental Illness in Correctional Institutions	8-8
Correctional Mental Health Focuses on “Serious Mental Illness”	8-9
Wide Range of Mood Disorders Can Be Manifest in Prison Inmates	8-10

Comorbid Disorders	8-11
Impact of Sexual Abuse	8-12
Sexual Abuse Prior to Incarceration	8-12
Sexual Abuse During Incarceration	8-13
Suicide as a Consequence of Depression in Prisoners	8-14
Incidence	8-14
Contributing Factors	8-14
Means and Opportunity	8-17
Assessing Suicide Risk	8-17
Effects of Isolation on Prisoners	8-19
Effective Responses to the Problems of Depression, Suicide, and the Negative Consequences of Incarceration	8-20
Sources of Information on Managing Suicidal Behavior	8-20
Correctional Staff Training	8-20
Identifying Potentially Suicidal Prisoners	8-22
Regular Screening	8-22
Complete and Shared Records	8-23
Appropriate Referral	8-23
Essential Steps in Effective Management of Potentially Suicidal Prisoners	8-23
Continuity of Care	8-25
Prisoner Peer Support	8-25
Legal Issues Related to Inmate Suicide	8-25
Traditional Mental Health Intervention Strategies for Depression in Jails and Prisons	8-26
Staffing Needs	8-27
Psychopharmacological Treatment	8-27
Other Appropriate Interventions	8-29
Cognitive-Behavioral Therapies	8-29
Intermediate Care Programs	8-30
Ancillary Complementary Approaches	8-30
Programs to Mediate Negative Consequences of Incarceration	8-33
Summary	8-34

Chapter 9: Schizophrenia, Its Treatment, and Prisoner Adjustment

Terry A. Kupers, M.D., M.S.P.

Introduction	9-2
About Schizophrenia	9-2
Diagnostic Picture	9-2
Treatment Developments	9-3
Life Course of Schizophrenia	9-4

The Experience of Prisoners With Schizophrenia	9-5
Overcrowding	9-5
Vulnerability to Stressful Situations and Trauma	9-6
Inability to Follow Prison Rules	9-6
Isolated Confinement	9-7
Problems That Plague Correctional Mental Health Programs	9-8
The Core Problem: A Relatively Deficient Budget	9-9
The Recycling Problem	9-9
Lack of a “Safe Space”	9-10
Cell Confinement	9-10
Lack of Comprehensive Treatment	9-11
Cell-Front Interviews	9-11
The Disturbed/Disruptive Prisoner	9-12
Malingering and Manipulation	9-12
Dual Diagnosis and Other Forms of Comorbidity	9-13
How a Well-Designed Mental Health Treatment Program for Prisoners With Schizophrenia Might Look	9-13
Societal Level	9-13
Prison System Level	9-14
General Considerations	9-14
Critical Components	9-15
Special Mental Health Facilities	9-15
Long-Term Follow-up and Safe Settings	9-16
Avoidance of Isolated Confinement	9-18
Staff Collaboration	9-19
Postrelease Planning	9-20
Adherence to Standards	9-20
Cross-Training of Staff	9-20
Quality Assurance	9-21
Conclusion	9-21

Chapter 10: Posttraumatic Stress Disorder in Prisoners

Terry A. Kupers, M.D., M.S.P.

Introduction	10-2
Elements of the Disorder	10-2
Symptoms	10-2
Coping Mechanisms	10-2
The Healing Process	10-3
Complex PTSD	10-3
Prevalence of PTSD	10-4
Prevalence in the General Population	10-4

Prevalence in Prison Populations	10-5
Retraumatization in Prison	10-6
Harsh Conditions	10-6
Rape	10-7
Isolated Confinement	10-7
Issues in Diagnosis	10-8
An Exclusive Focus on “Major Mental Illness”	10-8
Malingering and Other “Wastebasket Categories” vs. Bona Fide Mental Illness	10-9
ASPD: Comorbidity or Misdiagnosis?	10-9
Gender Differences	10-11
Treatment of PTSD in Prison	10-11
Safety, Remembering and Mourning, and Reconnection	10-12
Medications	10-14
Various Therapies	10-14
What Staff Can Do to Help	10-15
Careful Assessment	10-15
Work Together to Guarantee Safety and Maximize Treatment and Healing	10-15
Project a Sense of Fairness	10-17
Prognosis for PTSD in Prisoners	10-18
Issues for Further Consideration	10-19

PART 3: POPULATIONS ARISING FROM THE AGE OF INMATES

Chapter 11: The Graying of Corrections—The Management of Older Inmates

*David L. Thomas, M.D., J.D., Jacqueline A. Thomas, D.O. and
Scott Greenberg, D.O.*

Introduction	11-2
Demography of Graying Prisoners—Who Is Old in Prison?	11-2
The Definition of “Old”	11-2
Demography of Older Prisoners	11-3
Prisoners Who Aged While Incarcerated	11-3
Prisoners Sentenced at Older Ages	11-4
Aging Recidivists	11-4
Crime Policy’s Impact on the Graying of the Inmate Population	11-5
“Tough on Crime” Policy	11-5
Longer Sentences	11-6
Bottom Line: More People Incarcerated, for Longer Terms	11-6
Costs of Incarcerating and Increasing Number of Elderly Offenders	11-7

Treatment Needs “Imported” to the Institution 11-7

Age-Related Medical Needs 11-9

Special Issues With Aging Female Offenders 11-9

Effective Approaches to Managing Elderly Prisoners 11-11

 Medical Care 11-12

 Specialized Diets 11-12

 Handicapped Facilities 11-13

 Victimization by Other Inmates 11-13

 Inmate Assistants 11-13

 Exercise Regimens 11-14

 Discipline in the Elderly 11-14

 Specialized Postincarceration and Unique Transition
 Services 11-14

 End-of-Life Care 11-15

 Issues to Consider When Inmates Are Not Separately
 Housed 11-15

Conclusion and Discussion 11-17

**Chapter 12: Special Concerns of Managing Adolescent Female Offenders
in a Correctional Setting**

Patricia Ogren, M.Ed.

Introduction 12-2

Snapshot of Typical Adolescent Female Offenders 12-4

 Survivors of Dysfunctional Families 12-4

 Profile of a Typical Adolescent Female Offender 12-4

 Understanding Girls’ Paths to Delinquency 12-5

Critical Impact of Abuse and Posttraumatic Stress Disorder 12-6

Managing Adolescent Female Offenders 12-7

 Policies and Procedures 12-7

 Consistency and Structure 12-7

 Example: A Typical Day on the Unit 12-8

 Case Planning 12-9

 Gender-Specific Programming 12-10

 Education 12-10

Human Growth and Development of Adolescent Female Offenders 12-11

A System of Rewards 12-12

Housing 12-13

 Rooms 12-13

 Room Assignments 12-14

 Single-Cell Status 12-14

 Racial Issues 12-14

Traffic Patterns	12-14
It Is a Challenge to Hold Girls Accountable	12-15
Watching Their Every Move	12-15
Making Those Program Decisions	12-16
Mental Health Concerns for Adolescent Female Offenders	12-17
Staffing	12-18
Intensive Treatment Beds	12-18
Specific Staff Approaches for At-Risk Girls	12-20
Suicidality and Self-Harm	12-20
Cultural Issues	12-22
Copycat Syndrome	12-22
Intensity of Staffing Key	12-22
Medical Issues for Adolescent Female Offenders	12-23
Health Services Staff	12-23
General Health	12-24
Dental Needs	12-25
Pregnancy Issues	12-25
Adolescent Female Offenders and Their Children	12-26
Adolescent Female Sex Offenders	12-27
Families of Adolescent Female Offenders	12-28
Community Reintegration	12-29
Staff Working With Adolescent Female Offenders	12-30
Staffing Patterns	12-31
Staff Training	12-31
Professional Distancing	12-32
Inappropriate Sexual Relations Between Young Female Offenders and Staff	12-32
Battery to Staff by Adolescent Female Offenders	12-34
Staff Stress	12-35
Summary and Closure	12-35

Chapter 13: Youthful Offenders Incarcerated in Adult Institutions

William Sturgeon, M.A.

Introduction	13-2
The Rise of Incarceration of Youth as Adults	13-2
Upswing in Violent Youth Crime Shakes Traditional Juvenile Justice System	13-2
Legislatures Respond to Perceived Problem	13-3
Historical Response of Adult Facilities to Juveniles	13-4
Recognizing Youthful Offenders as a Special Needs Population	13-4
Youthful Offenders—Recognizing and Dealing With the Difference From Adult Inmates	13-6

Housing Options	13-6
Special Juvenile Programming	13-7
Calibrating “Toughness”	13-7
Treatment-Oriented Rehabilitation Programs	13-7
Programming in the Context of Adolescent Development	13-9
Education	13-11
Suicide Prevention Training	13-12
Inmate Management and Techniques	13-12
Planning Model for Youthful Offender Program Implementation	13-13
Purpose Element: Why We Do What We Do	13-13
Paper Element: Mission, Policies, and Procedures	13-14
Mission Statement	13-14
New Policies and Procedures Required	13-15
Disciplinary Issues	13-15
People Element	13-18
Total Staff Involvement	13-18
Keeping Family Involved	13-18
Visiting Day Issues	13-18
The Criminal Justice Community	13-19
Place Element: Location Issues	13-20
Equipment/Technology/Materials Element	13-22
Lessons Learned	13-24
Summary	13-26

PART 4: POPULATIONS RESULTING FROM SEXUAL ACTIVITY AND ORIENTATION

Chapter 14: Sexual Victimization of Inmates—Issues for Prison Management

Christopher Hensley, Ph.D. and Mary Koscheski, M.A.

Introduction	14-1
Terminology	14-3
Research on Sexual Assault in Male Prisons	14-4
Earlier Studies, 1960–1989	14-4
More Recent Research, 1990–2003	14-6
Research on Sexual Assault in Female Prisons, 1994–2003	14-7
Strategies for Affirmative Change	14-8
Prevention	14-8
Screening and Classification	14-8
Better Monitoring of Inmate Movement	14-9
Improved Housing	14-9

More Programs	14-9
Intervention	14-10
Inmate and Staff Education	14-10
Appropriate Treatment	14-10
Prosecution	14-11
Other Measures	14-11
Conjugal Visits	14-11
Furloughs	14-12
Institution Segregation of Target and/or Aggressor Populations	14-12
Conclusion	14-13

Chapter 15: Transgender Prisoners—A Forgotten Group

Richard Tewksbury, Ph.D. and Roberto Hugh Potter, Ph.D.

Scope of the Problem	15-1
Transgender Defined	15-3
In General	15-3
Types of Transgender Individuals	15-3
Sex Identity vs. Sexuality	15-4
Prevalence and Incidence of Transgender Persons in the United States	15-4
Issues for Correctional Management	15-5
Intake, Screening, and Classification	15-5
Health Care Policy Issues	15-6
Standards of Care	15-6
Legal Issues Related to Care	15-7
Staff Training	15-8
Addressing Significant Health Care Concerns of Transgenders and Related Institutional Policy	15-8
Issues Related to the Use of Cross-Gender Hormones	15-8
Care and Corollary Consequences of Genital Reconstruction	15-10
Sexually Transmitted Diseases	15-11
Breast Cancer	15-11
Physical and Sexual Assault Victimization	15-12
Focal Management Concerns in Handling Transgender Prisoners	15-13
Conclusion	15-14

Chapter 16: Managing Sex Offenders in Correctional Settings

Mary Ann Farkas, Ph.D.

Introduction	16-2
Sex Offenders in the Corrections System	16-3
Increasing Numbers	16-3
Increased Demand for Specialized Programming	16-3

The Processing of Sex Offenders in the Corrections System	16-4
Classification	16-4
Assessment	16-5
Typologies of Sex Offenders	16-6
Pedophiles	16-6
Incest Perpetrators	16-6
Rapists	16-7
Sex Offender Treatment	16-7
Context of Treatment	16-7
Sex Offender Treatment in Correctional Institutions	16-8
Jails vs. Prisons	16-8
Group Therapy	16-8
Education/Psychoeducation Modules	16-9
Cognitive-Behavioral Group Therapy	16-9
Plethysmography and Polygraphy	16-10
Issues in Sex Offender Treatment	16-11
Voluntary Participation and Admission of Guilt	16-11
The Impact of “Sexual Predator” Laws	16-12
Selection of Sex Offender Treatment Providers	16-13
Dilemmas of the Patient/Therapist Relationship in a	
Correctional Setting	16-13
Patient/Therapist Trust	16-15
Informed Consent	16-15
Confidentiality	16-16
Patient Autonomy	16-16
Medical Autonomy	16-16
Therapist’s Participation in Institutional Custodial	
Practices	16-17
Burnout Among Sex Offender Treatment Providers	16-17
Pre- and Postrelease Processes	16-19
Dealing With Stigma	16-19
Transition Planning	16-20
Program Evaluation	16-21
Conclusion	16-22

PART 5: OTHER POPULATIONS AND FUTURE CONSIDERATIONS

Chapter 17: Managing Death Row

Jeanne S. Woodford, B.S., Sheila M. Petrakis, B.A. and Stan Stojkovic, Ph.D.

Introduction	17-1
History of Capital Punishment in California	17-2
Impact of the Thompson Decree	17-3

Trifurcation of Condemned Inmates at SQP	17-3
Treatment, Services, Conditions, and Programming	17-4
Day-to-Day Operational Management	17-5
Out-of-Cell Activity	17-5
Tier Movement	17-6
Unit Facilities, Equipment, and Services	17-6
Visiting	17-6
Provision of Legal Materials	17-7
Attorney-Client Visits	17-7
Telephone Privileges	17-7
Personnel	17-8
Health Issues	17-8
Mental Health Issues and Condemned Prisoners	17-8
Physical Health Issues and Condemned Prisoners	17-9
Impact of Population Growth on Death Row Management Costs	17-10
Execution Process at San Quentin State Prison	17-11
Female Offenders and Death Row Management	17-12
Prison Leadership and the Management of Death Row	17-13
Conclusion	17-16

Chapter 18: Managing the Security Housing Unit—Lessons From the California Experience

Joe McGrath, B.A. and Rick Lovell, Ph.D.

Introduction	18-1
Why Security Housing Units Exist	18-2
Security Housing Unit Placements	18-3
Determinate Term Placements	18-3
Indeterminate Term Placements	18-3
Security Housing Unit Operation	18-4
Building Design	18-4
SHU Staffing	18-5
Lessons Learned: Managing Security Housing Units	18-5
Critical Importance of Leadership	18-5
Foremost Legal Concerns Facing SHU Managers	18-7
Foremost Overall Concerns Facing SHU Managers	18-8
An Observation From Experience on Effectiveness of the SHU	18-8
Conclusions and Recommendations	18-9

Chapter 19: Management of Inmates on Hunger Strikes

Michael B. Nelson, D.O.

Introduction	19-1
General Etiologies of Malnourishment Within Correctional Settings	19-2

Medical Conditions 19-2

Psychiatric Conditions 19-2

Hunger Strikes 19-2

 Voluntary/Volitional Hunger Strikes 19-3

 “Involuntary” Hunger Strikes 19-3

Evaluation for Malnutrition 19-3

 Baseline Evaluation 19-3

 Evaluation of Comorbid Concerns 19-4

 Unexplained Weight Loss 19-4

 Mental Status Change 19-5

Management of Hunger Strikes 19-5

 Objectives 19-5

 Assessment 19-5

 Monitoring Prior to Involuntary Feeding 19-5

 Operational Considerations 19-7

 Housing 19-7

 Availability of Water 19-7

 Offering Food 19-7

 Oral Nutritional Supplements 19-8

 Involuntary Feeding 19-8

 Fluid Replacement 19-8

 Enteral (Nasogastric Tube) Feeding 19-8

Conclusion 19-9

Chapter 20: Telehealth—A Future for Correctional Health Care

Philip R. Magaletta, Ph.D., Claude H. Dennery, Psy.D. and Robert K. Ax, Ph.D.

Introduction 20-1

Emergence of Correctional Telehealth 20-3

Administrative Considerations 20-4

Considerations for Practitioners 20-6

 General Guidelines for Infrastructure Development 20-6

 Accessibility to Power Sources and Phone Lines 20-6

 Accessibility of Equipment for Staff 20-7

 The Waiting Area 20-7

 Ensuring a Clear Television Picture 20-7

 General Guidelines for Delineating Clinical and Clerical Roles 20-7

 Define the Nature of the Remote-Hub Professional Relationship 20-7

 Define and Assign Clerical Responsibilities 20-8

 General Clinical Processes 20-8

 Preparation for Offenders 20-8

 Referrals 20-9

Log-in for Consultations	20-10
Consultations	20-10
Follow-up and Consultation Log-out	20-10
Specific Clinical Example	20-10
Conclusions	20-12

Chapter 21: Correctional Health Care and Special Populations—Legal Considerations and Context

Michele Deitch, J.D.

Introduction	21-2
Constitutional Requirements	21-3
<i>Estelle v. Gamble</i>	21-4
The “Deliberate Indifference” Requirement	21-5
The “Serious Medical Needs” Requirement	21-7
Responsibilities of Prisoners	21-8
Summary	21-8
Rights of Special Populations	21-9
Mentally Ill Inmates	21-9
Physically Disabled and Developmentally Disabled Inmates	21-11
Elderly Inmates	21-12
Inmates With Chronic Infectious Diseases	21-14
Pregnant Inmates	21-16
Transsexual Inmates	21-17
Avoiding Liability: Designing a Constitutional System for Delivering	
Correctional Health Care	21-18
The Risk of a Class Action in the Post-PLRA Era	21-18
Accreditation and Compliance With National Standards	21-19
Policies and Practices for Managing Special Populations	21-20
Indicators of the Quality of Care	21-20
Initial Screening System	21-21
Effective Communications/Sick Call System	21-21
Routine Examinations and Preventive Health Care	21-22
Priority/Triage System	21-22
Appropriate Health Care Personnel	21-23
Referrals Up the Line	21-24
Availability of Outside Care	21-24
Medical Records	21-25
Seamless Delivery of Care	21-25
Coordination Between Custodial Staff and Health	
Care Staff	21-25
Adequate Facilities, Equipment, and Resources	21-26

Quality Assurance/Accountability	21-27
A Cautionary Note	21-28
Special Considerations for Jails and Detention Facilities in	
Avoiding Liability	21-28
Suicide Screening	21-28
Detoxification	21-29
Continuity of Free-World Medications	21-30
Other Legal and Ethical Considerations	21-31
Confidentiality	21-31
Informed Consent and the Right to Refuse Treatment	21-32
Human Experimentation and Medical Research Involving	
Prisoners	21-34
Conclusion	21-35
